Caen, (FR) moving to Barcelona, (ES)

SUMMARY

During the past 4 years I have completed my studies with a Ph.D. in Computer Science. The academic field has provided me the opportunities to teach and above all to discover, learn, experiment and master machine learning algorithms and technologies. As a Data Scientist my desire is to find out solutions to real life problems by the strategic use of data.

EXPERIENCE

Temporary Lecturer and Research Assistant

Université de Caen Normandie

Jan 2016 - July 2016

Courses given about : Software development process, Search Engine, Numerical computation and imaging application.

Teaching Experience during Ph.D.

Université de Caen Normandie

Courses given about : Geographic Information System, UML Design, Multimedia Information Retrieval, Assistant Supervisor and Training tutor.

DIPLOMAS

Ph.D. Computer Science

Université de Caen Normandie

Oct 2012 - Dec 2015

- "Automatic photographs dating from textual and visual features."

Master Computer Science (CV & NLP)

Université de Caen Normandie

2011 - 2012

Bachelor Computer Science

Université de Caen Normandie

2009 - 2010

ACHIEVEMENTS

Musician in a band

50+ concerts, 2 European tours, 2 albums

Black belt in Aikido (Shodan)

Passionate by this martial art / philosophy

Photography enthusiast

Amateur and photographer since 7 years

TECHNOLOGIES

Machine Learning

Python

Scikit-Learn

NumPy

SciPy

matplotlib

nlTK

pandas

ipython

Weka (java)
